Acrylic Paint Matt for Indoor and Outdoor

Page 1 de 2

The matte plastic paint EXTRA Special limes is formulated based on emulsified resins of great penetrating capacity, able to hold the poorly adhered limes. It is especially suitable for those walls that have poor adhesion such as projected plasters, etc

Its finish is perfect both indoor and outdoor, and high hardness and resistance to the alkalinity of the cement. In its formulation, we use additives fungicides, algacides and bactericides of last generation, that confer resistance to attacks by algae, fungi, etc. which remains unchanged in the next years.
